

RDM ALLOWS TRITON GRUPA D.O.O
TO CENTRALIZE ALL ITS CONNECTIONS
IN ONE PLACE

**“What do I love about Remote Desktop Manager?
I don’t need to think about how to get the job done,
because Remote Desktop Manager just does the job!”**

- Darko Bazulj, Owner, Triton grupa d.o.o.

Client Snapshot

Triton grupa d.o.o. is a Croatian company that configures and maintains web servers and associated services, as well as builds advanced IT solutions. While Triton grupa d.o.o. is a relatively small company compared to some larger enterprises, its experts have a great deal of experience in the IT industry, and are trusted by clients **in a variety of fields, including medical, manufacturing and technology.** The company is led by its owner Darko Bažulj, who we are proud to say is one of the inaugural members of the [Devolutions Expert Team](#).

Triton grupa d.o.o.'s Challenges

Before using RDM, Triton grupa d.o.o. used a variety of tools and struggled to achieve the following key goals:

- **Centralize all connections in one place** - Add and quickly retrieve details about each connection - Deploy an automatic VPN connection when connecting to client servers in their domain controller - **Automatically backup data in case of error, power failure or other hazard**

Triton grupa d.o.o.'s Solution: Remote Desktop Manager

Since integrating Remote Desktop Manager into its environment a few years ago, Triton grupa d.o.o. can now quickly, easily and reliably achieve all of the following:

- Centralize and unify all remote connections in a single platform - Automatically backup data and restore if necessary - **Integrate with Keepass & Lastpass** - **Automatically access VPN integration** - Use cloud Explorer connections

Here's what Darko Bažulj, Owner at Triton grupa d.o.o., had to say about his company's experience with Remote Desktop Manager:

"RDM has not only solved all of our problems, but it has features which we haven't tried yet. As a result, we no longer need to think about organizing configuration files, or worry about whether our connections were backed-up. We can just focus on doing the work, which makes us much more productive. Plus, we have received a great deal of positive feedback from our clients, who appreciate our quick support. We had been searching for a solution for a while, and when we found RDM we knew that it was the right one – and we have never looked back!"
