**THE RIGHT CYBERSECURITY
SOLUTIONS AND SERVICES**

At RSAC 2020, Maurice Côté, VP of Business Solutions at Devolutions, was interviewed by Expert Insights, a resource for organizations looking to find the right cybersecurity solutions and services.

Maurice discussed the challenges that organizations of all sizes face when trying to tackle the problem of identity management and account compromise. He also discussed how Devolutions' unique identity and password management platform helps organizations protect their users, without making it difficult to get access to the accounts they need.
