

New Product: Introducing Wayk Now Beta – Instant Remote Support and Remote Desktop

**PLEASE GIVE A
WARM WELCOME TO
WAYK NOW!**

As you know, we strive to create solutions that help you “control the IT chaos” in your world. And that’s why today I’m thrilled to introduce you to the latest member of the

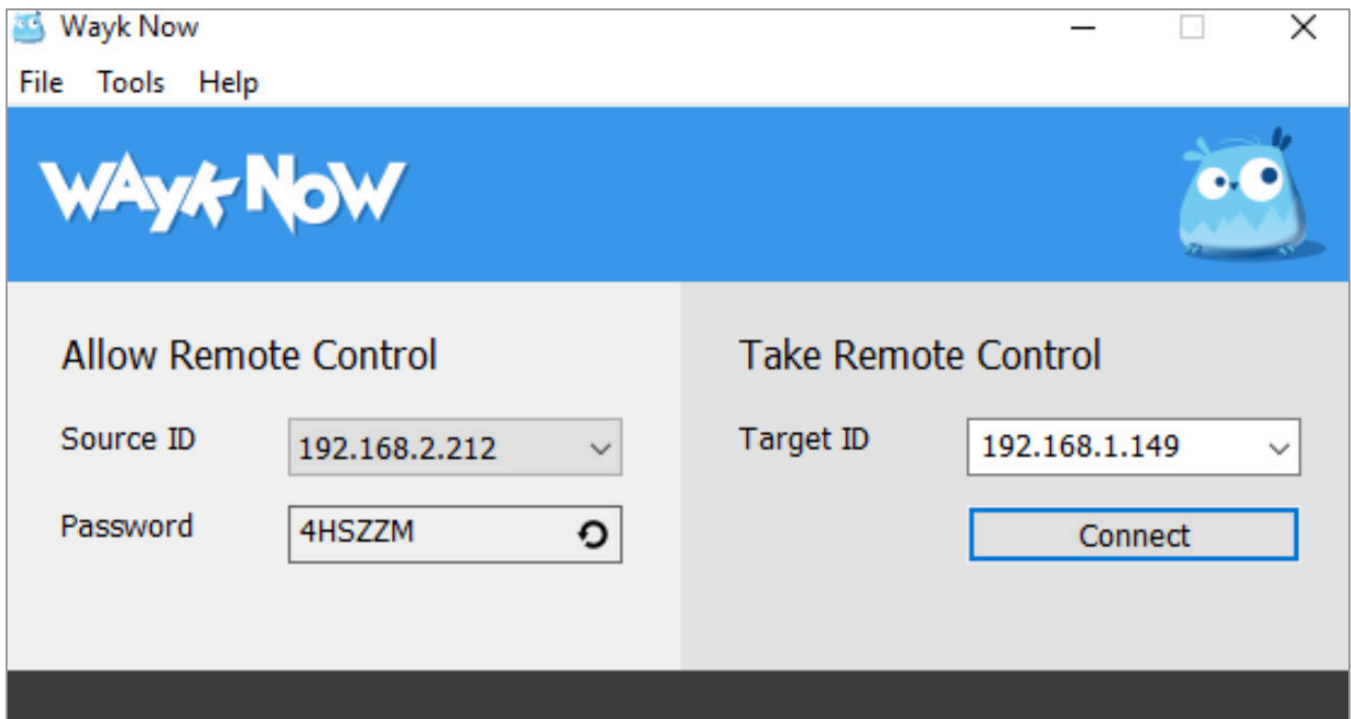

Devolutions family of innovative products: please give a warm welcome to Wayk Now!

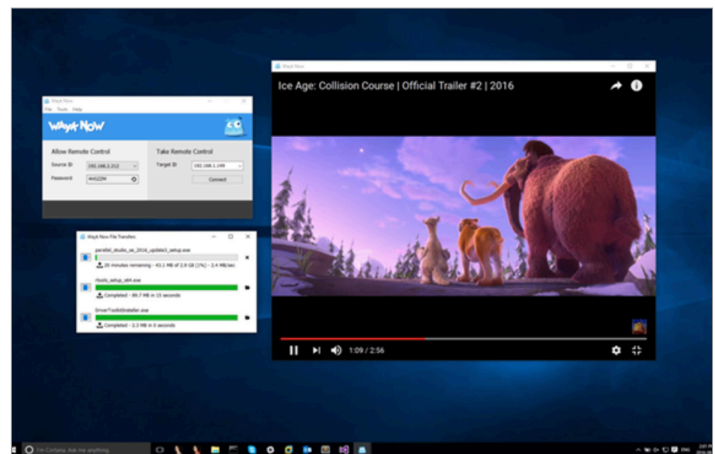

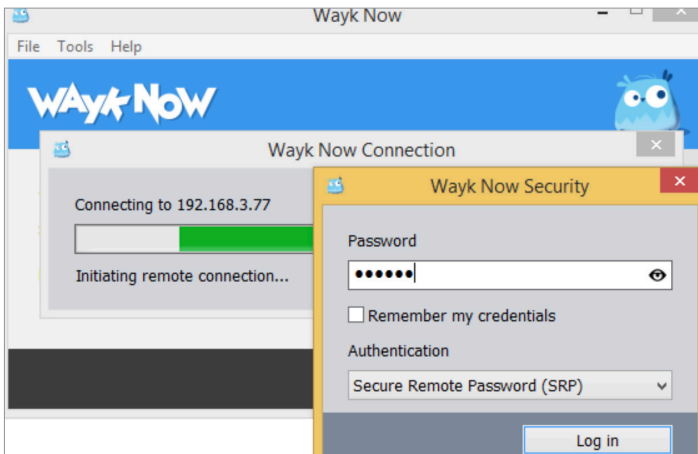

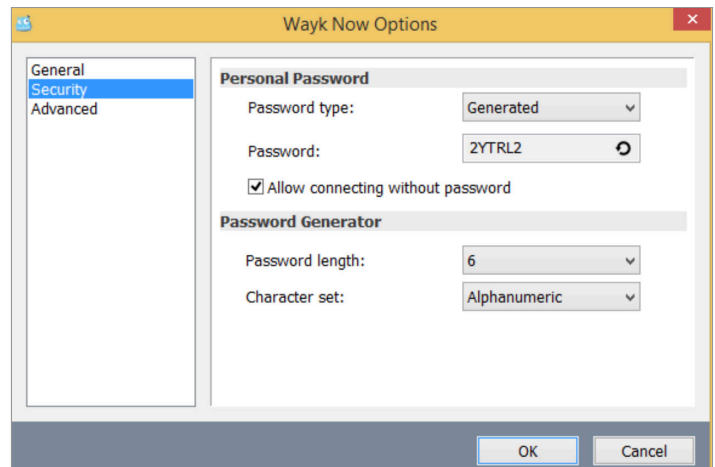

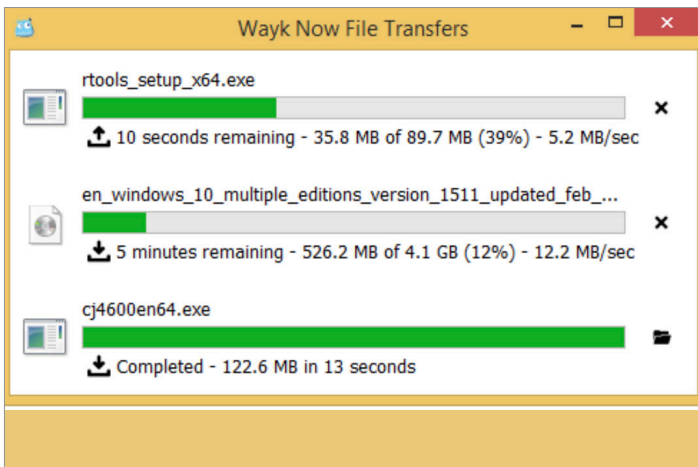

What’s Wayk Now?

Using Wayk Now, you can take control of a remote computer, or allow an authorized user to take control of your computer. Wayk Now will soon become available as a first Beta version of the software which will be released in the next weeks. Wayk Now is a new remote desktop tool that will also be integrated with Remote Desktop Manager soon after the release. [Sign up](#) now to get on the beta list.

Wayk Now key features include:

- **Send and receive files** of any size
- An **enhanced clipboard** that lets you copy/paste just about anything between local and remote applications
- Compatibility with **Windows, Mac OS X** and **Linux** – all with the same rich feature set
- Strong **TLS 1.2 encryption** with certificate validation
- **Easy-to-use**, with none of the common usability problems found in remote support and remote desktop scenarios
- A lightweight package with a small footprint that launches **without installation** or elevated permissions

Wayk Now is FREE

Right now, Wayk Now is free for everyone to use! In the future, we'll launch an enterprise version with various licensing options. However, the product **will ALWAYS be free for personal use, forever.**

Register to get Wayk Now Beta as soon as we release it
