

The logo features a blue and white stylized network of interconnected circles and lines on the left. To the right, the text 'Password Hub Business' is written in a white, sans-serif font, with 'Password Hub' on the top line and 'Business' on the bottom line. Below this, the version number '2020.3' is displayed in a large, bold, orange font on a black, tilted rectangular background. The background of the top section is blue with faint, light-colored icons of a gear, a cloud, and a person in a wheelchair.

After many months of hard work and testing, testing, and more testing, it's my pleasure to announce that **Password Hub Business 2020.3 is now officially available!** You can request a free 30-day trial by clicking [here](#).

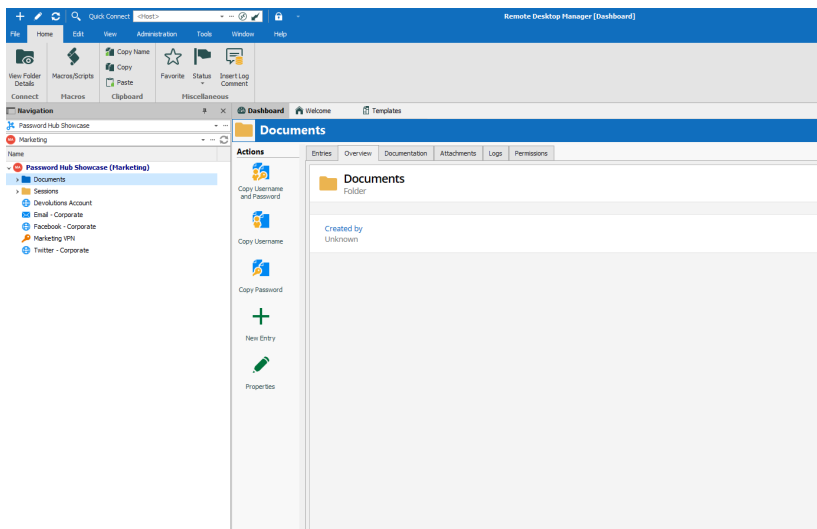

About Password Hub Business

Password Hub Business — formerly known as Devolutions Password Hub — is our highly secure, flexible, and easy-to-use cloud-based password management solution for businesses who need to share passwords and credentials within their organization. As we recently highlighted in a [blog post](#), we have changed the name **to better reflect that the solution is designed for team and organizational use.**

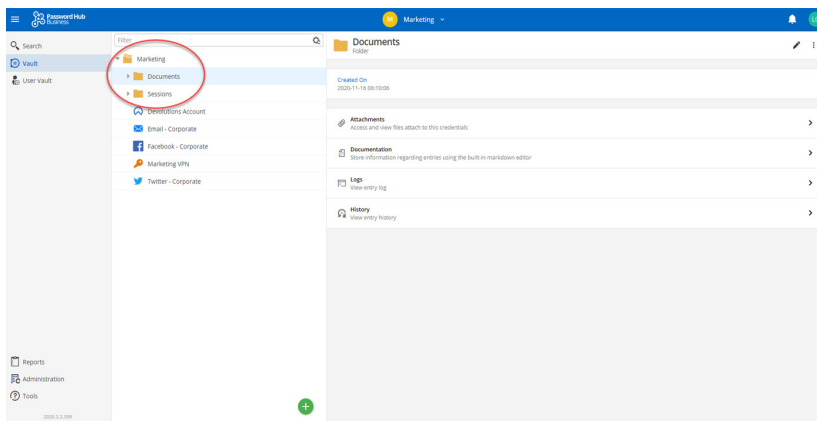

What's New

Password Hub Business offers some exciting new features, including many that were suggested by the amazing members of our global community (take a bow!). **Here are some of the improvements that you'll find:**

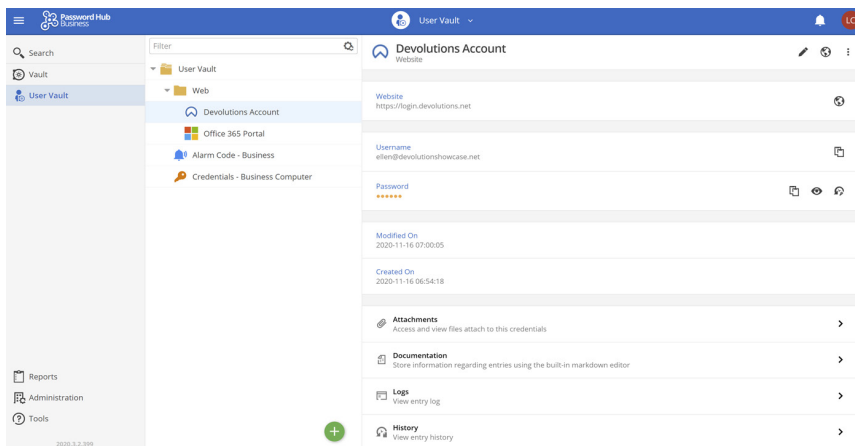

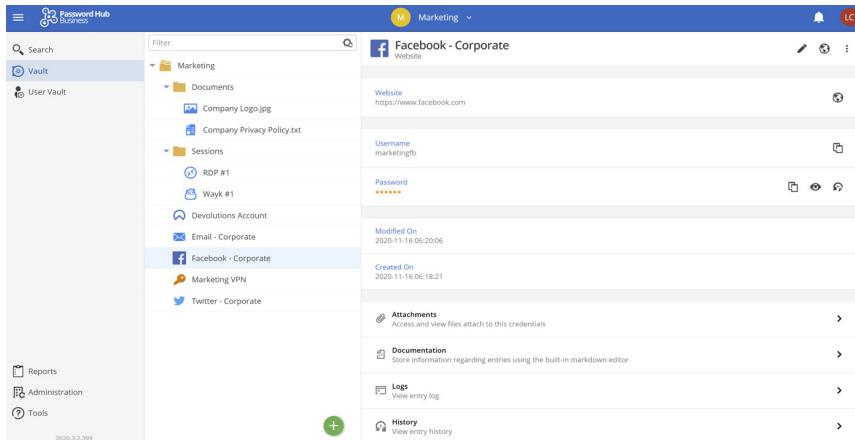

You can add [Password Hub Business](#) as a data source in [Remote Desktop Manager](#).

- You can create folders and sub-folders to organize entries.

- Security is verified through your [Devolutions Account](#), which means that you no longer need a master key to unlock your password vault.
- For greater security and user management, administrators now have better tools to manage and monitor shared vaults and user vaults (previously called private vaults).

There's more!

These are just some of the many improvements in the new Password Hub Business 2020.3! **For a complete list, please visit the [Release Note page](#) of Password Hub Business.**

Tell Us What You Think

Please tell us what you think about Password Hub Business by **commenting below, or by posting in our [forum](#)**. You can also request a free 30-day trial of Password Hub Business right [here](#). We are always listening to you and will keep working to make Password Hub Business even better.
