

**NEW: Wayk Now for Android Is Here!**

*Devolutions*

---

**WAYK NOW IS OUR NEW  
REMOTE DESKTOP/REMOTE  
SUPPORT TOOL**

---

A few weeks ago, I had the pleasure of announcing that [Wayk Now for iOS](#) is available in the App Store. I also mentioned that I'd soon have some good news for you Android folks, and since I don't want to break my promise: **Wayk Now for Android is here!** You can download it for free from Google Play:

## Haven't Woken Up to Wayk Now?

Wayk Now is our new remote desktop/remote support tool that lets you either take control of a remote computer or allow an authorized user to take control of your computer. Key features available on the desktop, iOS and Android versions include:

- Compatibility with Windows, Mac OS X, and Linux – all with the same rich feature set
- Strong TLS 1.2 encryption with certificate validation
- User-centered design, with none of the common usability problems found in remote support and remote desktop tools
- Lightweight package with a small footprint
- Perfect replacement for VNC or Microsoft Remote Assistance

Furthermore, like the iOS team, our Wayk Now Android development team is already working on adding the clipboard functionality, along with features that will let you send/receive files of any size. We're also working hard to make scaling on different displays flawless. We'll announce these updates in the near future.

## Wayk Now Is FREE for Personal Use

Please remember and spread the word: **Wayk Now is and always will be FREE for personal use**, and the mobile versions are FREE to download as well. If you'd like to use Wayk Now for business, you can purchase an **affordable and flexible licensing option**. Learn more about your options here: <https://wayk.devolutions.net>. You can also contact our sales team and we'll personally take care of you.

## Stay Tuned!

We're just getting started on the Wayk Now adventure, and as you might have read in the [Wayk Now Road Map 2017](#) written by our CEO David, **there's plenty of great stuff planned for the year ahead**. Please also get in touch with us to share your feedback. Tell us what you like, tell us what you don't, and tell us how we can make your Wayk Now user experience better. We're always listening to you!
