We are delighted and honored to announce that Devolutions has been named to Deloitte's 2019 Technology Fast 500, which is a list of the 500 fastest growing technology, media, telecommunications, life sciences, and clean technology companies in North America. Overall, Devolutions was ranked 486.

## **About the Program**

For 25 years, Deloitte's Technology Fast 500 program has recognized and honored private and public companies that define the cutting edge, transform business, combine technological innovation with entrepreneurship and rapid growth, and disrupt the technology industry.

Nominees for inclusion on the Technology Fast 500 list must be based in North America, have at least four years of operational history, have fiscal year 2015 operating revenues of at least \$50,000 and fiscal year 2018 operating revenues of at least \$5 million with a growth rate of 75 percent or greater (all figures USD), and own proprietary intellectual property or proprietary technology that must be sold to customers in products or services that contribute to a majority of the company's operating revenues.

## **From Our CEO & Founder David Hervieux:**

"When it comes to Privileged Access Management, Password Management, and Remote Connection Management, SMBs need the same security, functionality, and control as large enterprises. However, for years SMBs have been priced out of the market and basically treated like second-class citizens on the business landscape. We promised to change this, and being named to Deloitte's 2019 Technology Fast 500 validates that we are fulfilling our commitment to disrupt the market and empower SMBs through our suite of Universal Access and Password Management solutions."

## **Giving Credit Where It Is Due**

There are many people who are responsible for this distinguished and coveted honor, including Deloitte, our talented and hard-working team, our strategic partners around the world, and most of all YOU, the members of our phenomenal community. We have come a very long way since the early days of Devolutions. However, you can rest assured that regardless of how much we grow or how many awards we win, we will never lose sight of the fact that we exist to serve your needs and solve your problems. That has always been, and will forever remain, our number one priority.
