Overview and How-To Videos for Devolutions' Solutions

Devolutions

VIDEOS ABOUT EACH OF OUR UNIVERSAL ACCESS AND PASSWORD MANAGEMENT SOLUTIONS

I'm a big fan of how-to videos because I love learning about new products and how to use them. And if you're a visual learner like me, you'll be happy to know we've created some great **overview** and **how-to videos** about each of our Universal Access and Password Management solutions.

Overview Videos

Devolutions Password Server

[Devolutions Password Server](#) (DPS) is a full-featured shared account and **password management** solution with **built-in PAM components** that is designed to meet the ever-expanding security requirements of SMBs. DPS is **fast to deploy, easy to implement**, and very **affordable**.

Devolutions Password Hub

Controlled by IT pros and loved by business users, [Devolutions Password Hub](#) (DPH) is a **secure** and **cloud-based** password manager for teams. It empowers organizations to **easily** and **securely** vault and manage business-user passwords and other sensitive information through a **user-friendly** web interface that can be **quickly, easily**, and **securely** accessed via **any browser**.

*Special note: Due to the coronavirus pandemic, we have extended the free trial period for [Devolutions Password Hub from 30 days to 90 days](#).

Remote Desktop Manager

Remote Desktop Manager (RDM) centralizes **all remote connections on a single platform** that is **securely shared** between users and across the entire team (check out the new features in RDM 2020.2, which has just been released). With **support for hundreds of integrated technologies** – including multiple protocols and VPNs – along with built-in **enterprise-grade password management tools**, global and granular-level access controls, and robust mobile apps to complement desktop clients for Windows and Mac, RDM is a Swiss Army knife for remote access. RDM empowers IT departments to drive **security, speed,** and **productivity** throughout their organization, while reducing inefficiency, cost, and risk.

Wayk Now

Wayk Now is a **flexible, easy-to-use**, and **lightweight** remote desktop access solution that **reduces implementation time** while maintaining the latest industry security standards. When integrated with Wayk Den (which is **free** and works with Wayk Now Enterprise), organizations can launch all Wayk Now sessions on a centralized server (**cloud-based or on-premises**), access machines outside the network, and manage/monitor everything through an **easy-to-use web-based dashboard**. Wayk Now is the **ideal** remote desktop access solution for both **IT professionals** and business users alike.

*Special note: Due to the coronavirus pandemic, Wayk Now Enterprise + Wayk Den is free until September 19, 2020.
