

Remote Desktop Manager for Mac 4.0 is Now Available!

THE DEVOLUTIONS TEAM HAS BEEN HARD AT WORK MAKING SOME MAJOR IMPROVEMENTS

We're thrilled to announce that after several months of hard work, the latest and greatest mac version of **Remote Desktop Manager** has been launched: say hello to [version 4.0!](#)

What's New

The Devolutions team has been hard at work making some major improvements, enhancements and additions – many of which were suggested by our incredible community of IT pros (that would be YOU!).

We've already announced one new addition in RDM for Mac 4.0 that we think you'll appreciate: The Devolutions Proxy. But wait, there's more! Here are some of the **new features** you can look forward to:

- Multi-repository
- SQL Server DB Login
- Role-based security
- Root Settings
- Proxy Tunnel (HTTP, SOCKS4, SOCKS4a, SOCKS5)
- WebDAV files browser
- SCP files browser
- Native SFTP files browser
- VPN Mac specific settings

For the complete list of what's new or improved, check out our [change history](#).

How Can I Get It?

- **If you have an active Enterprise License**, you'll be prompted to upgrade when you log into Remote Desktop Manager or visit our website: <https://mac.remotedesktopmanager.com/Home/Download>
- **If your license has expired**, now is the ideal time to renew. Remember, you get lots of extras, including software maintenance and support. You can purchase a license through our online store, or send an email to sales@devolutions.net and our team will take care of you.
- **If you're new** to the Devolutions family (welcome!), you can [try RDM Enterprise for 30 days](#) at no cost. After that, you can purchase a license, or you can use [RDM Free](#) for as long as you wish.

Tell Us What You Think

We really want to hear **what you think of RDM 4.0**. Please let us know what you like and what you would like us to change, improve or fix. You can comment below, post in our [forum](#), or send me an email at jdupont@devolutions.net. I'll personally make sure that your comments are sent to our development team.

Stay tuned – there are many more exciting announcements on the way!
