

Remote Desktop Manager

Remote Desktop Manager ("RDM") is subscription-based, which means your subscription needs to be renewed every year.

Remote Desktop Manager is available in two editions: RDM Free and RDM Enterprise.

About RDM **Free**

RDM Free is designed for individual users who do not need to share remote connections and privileged passwords. RDM Free can be used for both business and personal needs. RDM Free is available at no cost.

RDM Free supports:

- Remote connection management
- Password management

RDM Free does not support:

- Shared database and vaults
- Role-based access control
- Two-factor authentication
- Audits and reports

About RDM **Enterprise**

RDM Enterprise is designed for MSPs, IT professionals, and helpdesk technicians who need to share remote connections and privileged passwords with team members.

RDM Enterprise supports:

- Remote connection management
- Password management
- Shared database and vaults
- Role-based access control
- Two-factor authentication
- Audits and reports

Pricing

RDM Enterprise subscriptions are available at the following prices:

	 Number of Users	 Number of Sites	 Number of Countries	Prices (USD)
USER	1	-	-	\$199.99
SITE	Unlimited	1	-	\$4,499.99
COUNTRY	Unlimited	Unlimited	1	Please Contact Sales Team
GLOBAL	Unlimited	Unlimited	Unlimited	Please Contact Sales Team

*Pricing is billed annually and in USD. Actual exchange rates may vary.

Each RDM Enterprise user requires a subscription, regardless of how many users are connected at the same time.

Remote Desktop Manager Enterprise - Perpetual License

Perpetual licenses, which means you can use the solution indefinitely, and do not need to re-purchase a license every year, are also available for Remote Desktop Manager.

Please contact our Sales Team for more information.

Subscription Case Scenarios

Scenario 1

"My team has 10 IT professionals that need Remote Desktop Manager. They are working in multiple locations and are not in the same building."

In this scenario, you would purchase:

10 X User subscription

Scenario 2

"My team has 25 IT professionals that need Remote Desktop Manager. They all work in the same building."

In this scenario, you would purchase:

1 X Site subscription

Scenario 3

"My team has 100 IT professionals that need Remote Desktop Manager. They work in various locations throughout the country."

In this scenario, you would purchase:

1 X Country subscription

Scenario 4

"My team has 100 IT professionals that need Remote Desktop Manager. They work in various locations in more than one country."

In this scenario, you would purchase:

1 X Global subscription

Support and Maintenance

All Remote Desktop Manager Enterprise subscription plans offer software maintenance (1 or 3 years), which includes all major/minor upgrades and technical support. You need to renew your subscription agreement upon expiry. If you don't renew your subscription, Remote Desktop Manager will no longer function.
